I'll get everything in line so that Chris has the funding doc (PR) waiting for him when the Action Memo is signed.

Gary:

I have a removal scheduled to mobilize Monday, August 12. On July 16, I sent a reviewed AM to HQ for concurrence, which is required because the contaminant of concern is asbestos. The AM has not yet been concurred upon but it is expected to be. Once the concurrence memo arrives, Chris F will sign the AM and we're ready to go. (CF has already reviewed the AM.)

So, the purpose of this email is to let you know it is coming and to see when you would need a signed AM to have funding available to ERRS by Wednesday or Thursday. I apologize for this push at the last minute, but I certainly thought three weeks would be sufficient to review an AM that had gone through 4 layers of review previously.
